

TRENZSEATER

MAX RUG

The TRENZSEATER rug collection is designed by Ben Lewis in a boutique number of unique designs and exclusive colourways particular to this collection. Hand tufted with random mix of merino wool and bamboo silk fibres to give variation to the pile along with the "X" pattern going through the rug design.

Our rugs are artisan crafted making no two rugs are alike. Given the hand tufted nature, slight variations and size are inherent to the design.

Wool and Bamboo rugs are characterized by tonal variations that may be affected by the light in a room as well as the angle from which the rug is viewed. Shifting highlights and lowlights in the surface color of the rug are to be expected.
