

## 25

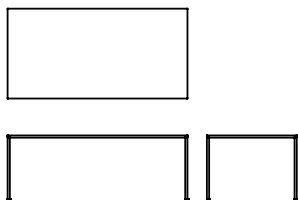

### Metrica (Bruno Fattorini - Robin Rizzini) - 2011

An archetype table, 25 takes its name from the minimum thickness of the top and leg, precisely 25 mm. The absolute essence of the avant-garde, 25 won the 2014 Compasso d'Oro design award for "the feeling of amazement this table evokes when comparing its slenderness to the considerable lengths it can achieve"

## Available models

Table with 25 mm thickness top made of a composite material covered with acrylic resin, oak wood veneered, or covered with hand-spread pastes, as per price-list. Legs with 25x25 mm section in lacquered steel, ossidiana or entirely covered with hand-spread pastes.
