STUDIO 63 FLOOR LAMP

Mariano Fortuny loved to experiment with light, and was a famous inventor and stage lighting technician in his day. In fact his developments are still used in prestigious theatres around the world.

Fortuny floor lamps are the result of that experimentation with indirect and diffused light.

The Studio 63 black and silver has a diffuser diameter of 63 cm. The lamp has an aluminium shade and steel structure, and has 360-degree swivel and tilt capacity. The lamp comes with removable wheels and a dimmer.

Choose among many different colors.
